

**PRESS RELEASE - FOR IMMEDIATE RELEASE**

**Technology Books for Children** - A charity Empowering Young Minds for the Digital Age

United Kingdom – Technology Books for Children, a national charity dedicated to fostering a love for technology through reading, is proud to announce its mission to cultivate a generation of informed and inquisitive digital citizens. **Our goal is to encourage reading for pleasure on tech topics and to help children engage critically with the digital world around them.**

### **Mission and Vision**

At Technology Books for Children, our mission is to inspire young readers to explore the wonders of technology through captivating books and engaging resources. We believe that fostering a deep understanding of technology from an early age equips children to be active participants in the digital world, capable of questioning and comprehending its various facets.

### **Support for the Community**

“We support children, educators, parents, and families in gaining a greater understanding of technology, through book recommendations, resources, and discussion,” says Beverly Clarke MBE, Founder and CEO of Technology Books for Children. “Our aim is to normalise conversations about tech and to do this through reading for pleasure”. Our work also aligns with UN Sustainable Development Goals and Gatsby Benchmarks.

### **Charity Values**

Our values guide every aspect of our work:

- **Encouraging** Reading for Pleasure on Tech Topics: We believe that reading about technology should be a delightful and engaging experience that sparks curiosity and imagination.
- **Sharing** Books with a Tech Theme: By providing a diverse selection of tech-themed books, we ensure that children have access to stories that both educate and inspire.

## PRESS RELEASE - FOR IMMEDIATE RELEASE

- Providing **Quality** Recommendations and Resources: We are committed to offering carefully curated book recommendations and resources that meet the highest standards of quality and relevance.
- Developing **Community** - We strive to create supportive communities where children, educators, and families can come together to discuss, explore, and learn about technology.

### Get Involved

We invite you to visit our website, [www.technologybooksforchildren.org](http://www.technologybooksforchildren.org) to learn more about our work, explore our book recommendations, and discover ways to get involved. Whether you're a parent, teacher, publisher, corporate organisation or community leader, your participation can help us make a significant impact on children's understanding of technology.

### About Technology Books for Children

Technology Books for Children is a nonprofit organisation dedicated to promoting technology literacy through the joy of reading. Our work helps to empower children with the knowledge and skills they need to navigate and thrive in the digital world. We provide resources, book recommendations, and community support to foster a love for technology and reading.
